TCL PLAYCUBE

Ready. Twist. Play.
Anywhere.

Twistable PlayCube Design

The distinctive cube design allows for easy projection from any angle, giving you the freedom to project wherever you go—effortlessly and seamlessly. Super lightweight and portable, this projector is designed to go wherever you do. Grab it, take it, and enjoy unmatched convenience. Sleek lines and the elegant Celadon Ash color palette embody modern design aesthetics, showcasing exceptional taste and sophistication.

Built-In Battery for Ultimate Portability:

Fully charged and ready to go—perfect for camping trips. No more being tied down by cords! Enjoy a full screening of Inception (2.5 hours) in the wild without needing an outlet. Plus, with fast charging, just 30 minutes of charge gives you an hour of use.

Stunning Audio Visual Experience

The brightest built-in battery projector under 3 lbs on the market, delivering crystal-clear visuals whether it's day or night, indoors or outdoors.

Instant Display Correct

Not every projector offers real-time auto-focus. No matter how you adjust the angle, the projection instantly corrects to a perfect rectangle—no waiting, no manual tweaking. It's the smooth, high-end experience you deserve.

The projector product has passed Google GTV certification, Netflix certification, and prime video certification. Bringing unlimited streaming resources and an extraordinary experience.
